

What is ExamBank?

ExamBank is a web site where students can write online practice exams in core subject areas for all grade levels from Kindergarten to Grade 12. The practice exams that are available at ontario.exambank.com consist of quality questions prepared by subject specialists and pertaining directly to the Ontario curriculum. We have taken extra care to make sure that our exams also follow the same subject matter and format as the EQAO exams taken in grades 3, 6 and 9 as well as the OSSLT exam in grade 10. Countless variations of exams are possible through a randomized selection from our large question banks; either for a specified unit or an entire course. The exams are automatically and instantly scored, to provide immediate feedback including correct answers and, in most cases, detailed explanations. This enables students to see where their strengths and weaknesses lie.

The popularity of ExamBank has been growing at a phenomenal rate. Since the service was launched in 1999, usage has increased by 30% to 50% every year. Hundreds of thousands of students already use ExamBank to prepare for both classroom and provincial exams, reinforcing their knowledge of the curriculum and reducing test anxiety. To date, more than 7.6 million practice tests have been written with the service.

Account options:

Most students study online with ExamBank through a school account—schools can set up an account with us either online or over the phone. We also encourage you to pass along news of this user-friendly service to parents and students seeking resources to help improve academic performance, as family accounts are also available.

Access options:

Full access control is provided with an ExamBank account.

Some schools encourage students to use their school ExamBank account from home for further preparation, whereas other schools prefer to limit access to school hours or school computers. You are also able to set

the grade levels that you would like your account to have access to, and can monitor how your account is being used. Full details and summary statistics are provided, showing which exams are being written and at what times.

Package options:

To place your order, you can contact us at the phone number below or do so online by clicking on “How to get an account”
